

Curriculum vitae

Mikhail Yu. Kirillin

Personal data, contact information

Name: Mikhail Yu. Kirillin,

Senior research fellow at Department for Radiophysics Methods in Medicine, Biophotonics Laboratory

Tel: +7 831 4164619

E-mail: kirillin@ufp.appl.sci-nnov.ru,

<http://www.bioimaging.ru/>

Educational background

2008 – Dr.Sc. (Tech.), Technology, University of Oulu, Faculty of Technology, Thesis title: “Optical coherence tomography of strongly scattering media”, Scientific advisor: R. Myllylä

2004 – 2008: Dr.Sc. Student of University of Oulu, Faculty of Technology

2006 - Ph.D., Physics, M.V. Lomonosov Moscow State University. Department of Physics. Thesis title: “Light propagation in strongly scattering media and formation of signals in laser diagnostic systems”, Scientific advisor: A.V. Priezzhev

2003 – 2006: Ph.D. Student of M.V. Lomonosov Moscow State University. Department of Physics.

2003 - Master of Science (with honors), Physics

2001 – 2004: Student of Russian-German Institute for Science and Culture (3-year program).

1997 - 2003: Master Student of M.V. Lomonosov Moscow State University. Department of Physics.

Scientific interests

Light propagation in highly scattering media

- Theory of light propagation in highly scattering media, application for biotissues
- Optics of blood
- Optics of paper
- Optics of skin
- Computer simulation of light propagation in scattering media (Monte Carlo method)
- Optical methods of biomedical diagnostics
- Optical clearing
- Effect of nanoparticles on light propagation in scattering media

Optical Coherence Tomography (OCT)

- Noninvasive monitoring of tissue optical properties
- OCT-based noninvasive blood glucose sensing
- Monte Carlo simulation of OCT signals and images
- OCT imaging in material sciences / production control
- Optical properties control and contrasting of OCT images

Optical Diffuse Tomography

Fluorescent Diffuse Tomography

Professional activity

2011 – present: Senior Researcher, Institute of Applied Physics RAS, Nizhny Novgorod, Russia

2011 – 2012: Senior Researcher, N.I. Lobachevsky Nizhny Novgorod State University, Nizhny Novgorod, Russia

2008 – 2011: Researcher, Institute of Applied Physics RAS, Nizhny Novgorod, Russia

2004 – 2008: Researcher, University of Oulu, Finland

Visits:

2010, 2012: Visiting Researcher, Royal Institute of Technology, Stockholm, Sweden.

2009, 2010, 2012: Visiting Researcher, University of Oulu, Finland

2008: Visiting Researcher, Cranfield University at Silsoe, UK

Membership in professional organizations

2002 – present: The International Society for Optical Engineering (SPIE).

2007- 2008: Finnish Optical Society (FOS)

2011 – present Reviewer in *Biomedical Optics Express*,

2008 – present Reviewer in *Optics Express, Applied Optics, Journal of Optics and Laser technologies, Optics Letters, JIOHS, Journal of Biomedical Optics, JOSA, Optics and Spectroscopy*.

2007 – present Reviewer in *Journal of Biophotonics*

2006 – present Reviewer in *Quantum Electronics Journal*

2013 Scientific Secretary of International Workshop “Clinical Biophotonics” at International Conference “Topical Problems of Biophotonics (TBP 2013)”

2013 Member of organizing committee of International Conference “Topical Problems of Biophotonics (TBP 2013)”

2011 Scientific Secretary of German-Russian Workshop “Clinical Biophotonics” at International Conference “Topical Problems of Biophotonics (TBP 2013)”

2011 Member of organizing committee of International Conference “Topical Problems of Biophotonics (TBP 2011)”

2010 Member of Program Committee of Biophotonics section of ICONO/LAT 2010 International Conference

2010, 2012 Guest editor of special issue of *Journal of Biophotonics*.

2009 Member of organizing committee of International Conference “Topical Problems of Biophotonics (TBP 2009)”

2009 Scientific Secretary of Russian-French-German Laser Symposium 2009 (RFGLS 2009)

2007 Member of organizing committee of Advanced Laser Technologies (ALT 2007) Conference

2004 Member of organizing committee of High Laser School – Short Courses “Modern Problems of Laser Physics”
2002 – 2003: Treasurer of SPIE Student Chapter of M.V. Lomonosov Moscow State University.

Awards, prizes, grants

2012 – Diploma of Intel competition for applied studies and developments in the area of computer technologies “Computer continuum: from idea to implementation”
2012 – 1st rank diploma of the winner of competition of young scientist’s research in the area of medical physics
2007 - Tauno Tönnig Foundation Scholarship
2005 - SPIE Educational Scholarship
2005 - Best Poster Prize of International Autumn School “Modern Biophysical Techniques for Human Health”
2004 - Scholarship of the President of Russian Federation
2004 - Diploma of the International Conference "Lomonosov 2004" for the best report in the workshop
2003 - Diploma of International Laser Center.
2003 - Diploma with Honors for achievements in studies, M.V. Lomonosov Moscow State University

Principal investigator

2012-2013: Project of the Ministry of Education and Science of Russian Federation “Development of optical diagnostic methods for biological objects employing nanosize contrasting agents”
2010-2011: Grant of the President of Russian Federation for support of young scientists «Formation of tomographic images of biotissues under external action»
2010-2012: Grant of the Russian Foundation for Basic Research «Study of mechanical deformation effect on optical properties of biotissues by polarization-sensitive optical coherence tomography»
2009-2010: Grant of the Russian Foundation for Basic Research «Development of contrast enhancement techniques for tomographic images of strongly scattering objects in biomedical diagnostics»

Publications

33 peer-reviewed journal publications, 3 book chapters, 120 publications and abstracts in conference proceedings

The most significant works and results

Full list of peer-reviewed journal publications

1. П.Д. Агрба, Е.А. Бакшаева, Д.О. Эллинский, И.Л. Шливко, **М.Ю. Кириллин** “Роль механической компрессии при визуализации кожи человека методом кросс-поляризационной оптической когерентной томографии”, *Современные технологии в медицине*, 6(1) в печати (2014)
2. V. O. Korhonen, T. S. Myllylä, **М.Ю. Kirillin**, A. Popov, A. Bykov, A. V. Gorshkov, E. A. Sergeeva, M. Kinnunen, V. Kiviniemi, “Light propagation in near-infrared spectroscopy of the human brain”, *IEEE Journal of Selected Topics in Quantum Electronics*, in print (2013).
3. Губарькова Е.В., **Кириллин М.Ю.**, Сергеева Е.А., Киселева Е.Б., Снопова Л. Б., Проданец Н.Н., Шарабрин Е.Г., Шахов Е.Б., Немирова С.В., Гладкова Н.Д., “Кросс-поляризационная оптическая когерентная томография в оценке структуры атеросклеротической бляшки”, *Современные технологии в медицине*, 5(4), 24-34 (2013)

4. А.Д. Крайнов, А.М. Мокеева, Е.А Сергеева, П.Д. Агрба, **М.Ю. Кириллин**, «Оптические свойства биотканей мыши и их оптических фантомов» *Оптика и спектроскопия*, **115**(2), 47-54 (2013).
5. Пантелейева О.Г., Зиновьев А.Н., Юнусова К.Э., **Кириллин М.Ю.** и Шахова Н.М. “Диагностические возможности оптической интроскопии в выявлении причин нарушения репродуктивного здоровья женщин” отправлено в журнал *Российский вестник акушерства и гинекологии*
6. **M. Kirillin**, P. Agrba, and V. Kamensky “Mechanical compression in cross-polarization OCT imaging of skin: in vivo study and Monte Carlo simulation”, submitted to *Journal of Biomedical Optics*
7. A.V. Gorshkov, **M.Yu. Kirillin**, “Monte Carlo simulation of brain sensing by optical diffuse spectroscopy”, *Journal of Computational Science*, **3**, 498–503, (2012).
