

Curriculum vitae

Ilya V. Turchin

Personal data, contact information

Name: Ilya Turchin,
Head of the Department for radiophysics methods in medicine
Head of Biophotonics laboratory
Tel: +7 831 4368010
E-mail: ilya@ufp.appl.sci-nnov.ru,
<http://www.bioimaging.ru/>

Educational background

1994–2000: Student at the Advanced School of General at Applied Physics, Nizhny Novgorod State University

2000 – MS degree, Physics at the Advanced School of General at Applied Physics, Nizhny Novgorod State University

2000 – 2003: postgraduate student at the IAP RAS

2006 – PhD in Physics, speciality "Radiophysics", thesis "New methods for synthesis and processing of broadband signals in the near infrared and millimeter wavelengths". Supervisors: Valentin Gelikonov and Michael Petelin.

Scientific interests

Biological tissue optics. Development of optical imaging devices for biomedical diagnostics:
- Fluorescence methods for small-animal imaging (backreflection, transillumination methods, fluorescence diffuse tomography)
- Diffuse optical spectroscopy (detection of breast cancer)
- Fluorescence ultramicroscopy of the optically transparent tissues
- Multi-spectral optoacoustic tomography
- Optical coherence tomography

Professional activity

1998-2006: Researcher at the IAP RAS

2007 - present: Head of Biophotonics Laboratory at the IAP RAS

2013 - present: Head of the Department for radiophysical methods in medicine at the IAP RAS

2011 - present: Researcher at the Nizhny Novgorod State Medical Academy

Visits: University of Texas (Austin, Galveston 2003,2004), Minimally Invasive Surgical Technologies Institute at Cedars-Sinai Medical Center (Los Angeles, 2008), Anticancer Inc. (San Diego, 2010), Institute for Biological and Medical Imaging of the HelmholtzZentrum (München, 2010), Massachusetts Institute of Technology (Boston, 2013)

Membership in professional organizations

Reviewer in: Journal of Biomedical Optics (**2008-current**), Journal of the European Optical Society (**2007**), Optics & Laser Technology (**2009**)

2010 - present – member of the Scientific Council of the Non-Linear Dynamics and Optics Division at the IAP RAS

2013 - present – member of the Scientific Council of the IAP RAS

2007,2009,2011,2013 – Scientific Secretary of the Optical Bioimaging Conference at the International Symposium Topical Problems of Biophotonics (Nizhny Novgorod, Russia)

2012 – Program committee member of the OSA Biomedical Topical Meeting (Miami Beach, USA)

2012 - Program committee member of the upcoming ACP2012 (Guangzhou, China)

2012 - present – registered in the national list of experts in scientific and technical activity

Awards, prizes, grants

2013 – Silver medal for invention "Diffuse fluorescence tomography setup for biomedical research", 24-th International Invention, Innovation & Technology Exhibition ITEX 2013, Malaysia, Kuala Lumpur, 9-11 May 2013 (authors: Turchin Ilya, Kleshnin Mikhail, Kamensky Vladislav, Fiks Ilya)

2012 - Award of the Nizhny Novgorod Ministry of Industry and Innovations

2009 – Gold medal of the American-Russian Business Union (ARBU) for the innovation "Diffusion Optical Tomography"

2008 – Gold medal at the Belgian and International Trade Fair for Technological Innovations for the innovation "Polarization optical spectrometer"

2002 – Scholarship of the Razuvaev academician

Managing of scientific projects

2013-2015: grant of the Russian Foundation for Basic Research «Development of the whole-body fluorescence lifetime imaging methods for visualization of molecular processes at the organism level»

2013-2015: grant of the Russian Foundation for Basic Research: «Simultaneous ultrasound and spectral photoacoustic microscopy for functional and structural diagnostics of biotissues»

2013: project "Development of the photoacoustics functional imaging methods" in the frames of the Federal Targeted Program "R&D in Priority Fields of the S&T Complex of Russia (2007-2013)"

2011-2012: project "Development of the fluorescence and bioluminescence small-animal molecular in vivo imaging" in the frames of the Federal Targeted Program "R&D in Priority Fields of the S&T Complex of Russia (2007-2013)"

2011-2012: grant of the Russian President for supporting of young Russian scientists: "Developments of the in vivo fluorescence imaging methods for the experimental oncology investigations"

2010-2012: grant of the Russian Foundation for Basic Research: «Developments of the Fluorescence Diffuse Tomography»

2007-2009: grant of the Russian Foundation for Basic Research: «Fluorescence Diffuse Tomography»

Educational activity

2009 - present: a course of lectures "Optical methods for biomedical diagnostics" for graduates of the Radiophysics Faculty at the Nizhny Novgorod State University

2012 - present: lectures "Optical bioimaging" for students of the Nizhny Novgorod State Medical Academy

Publications

39 peer-reviewed journal publications, 4 book chapters, 76 abstracts in conference proceedings

The most significant works and results

Full list of peer-reviewed journal publications
